PRODUCT SPECIFICATION 2026

KFlex Mobile & Web Application

UI/UX Overhaul & Complete Screen Catalog

Comprehensive Architectural Guide, Design System, Persona Journeys,
and Screen-by-Screen AI Design Prompts for Early Years Childcare Staffing.

Sector: UK Early Years & Childcare (EYFS) • Target Platforms: Flutter Mobile (iOS/Android) & Web Admin
Version: 2.1 (October 2026) • Status: Active Redesign Specification • Format: Multi-modal AI Ready

Executive Design Objective
This specification serves as the complete, authoritative brief for an AI designer or UI/UX team to recreate and modernize the entire KFlex digital ecosystem. It addresses existing color and layout fatigue (transitioning away from cold generic tech blues to warm, trustworthy British early years aesthetics), details every active screen across Practitioner, Nursery, and Admin user journeys, outlines the migration of heavy operational tasks to the Desktop Web Admin Portal, and provides copy-pasteable, highly descriptive generative AI design prompts for every single view.

Core Focus Areas in this Document

- **1. Design Psychology & Palette:** Resolving the 'meeh' visual feel with 3 bespoke palettes tailored to UK childcare, warmth, safety, and Ofsted compliance.
- **2. Practitioner Mobile Experience:** Frictionless shift discovery, live rate cards with 12.07% holiday pay breakdown, and 1-tap timesheet submission.
- **3. Nursery Manager Mobile Experience:** Multi-branch shift posting, instant cost preview, 14-day trial management, and rapid timesheet sign-off.
- **4. Desktop Web Admin Portal Migration:** Relocating document vetting, audit logs, invoice reconciliation, and HMRC PAYE CSV exports to secure desktop web.
- **5. AI Screen Generation Prompts:** Zero-ambiguity, production-ready design prompts structured for Midjourney, v0, Galileo, and Figma AI.

1. Executive Design Context & Creative Brief

KFlex is the premier UK staffing marketplace connecting qualified Early Years practitioners (Nursery Nurses, Room Leaders, EYFS Specialists) with early years nurseries, pre-schools, and crèches across England and the United Kingdom.

The mobile application serves two primary personas who operate in high-tempo, emotionally intensive environments. Every screen must balance compliance rigor (DBS checks, OFSTED ratios, qualifications, timesheet approvals) with warmth, approachability, and extreme ease-of-use.

Target User Personas & Emotional Triggers

- **Persona A: The Early Years Practitioner:** Hourly-paid early years workers, often commuting early morning. Needs crystal-clear shift timing, exact nursery postcode, visible hourly rate with mandatory 12.07% rolled-up holiday pay split, and instant, painless clock-in/out without confusing bureaucracy.
- **Persona B: The Nursery Manager / Room Leader:** High-stress hiring manager dealing with emergency staff sickness at 6:45 AM. Needs to post shifts in under 60 seconds, view vetted practitioner badges instantly, verify qualifications (Level 2, Level 3, Level 4+), and approve timesheets without opening a laptop.
- **Persona C: Platform Compliance & Payroll Admin:** Operational headquarters managing HMRC PAYE payroll exports, DBS certificates via the Update Service, invoicing disputes, and Bacs transfers. This persona operates primarily on the newly migrated Desktop Web Admin Console.

Proposed Modernized Color Palettes

The existing Indigo (#3F4CE0) and Coral (#E0447A) scheme feels overly clinical, stark, and slightly aggressive for the British early childhood sector. Below are three expertly crafted, WCAG AAA accessible alternatives that evoke security, nurturing care, and high-trust professionalism.

Option 1: Modern British Early Years (Recommended)

Warm Forest Green primary with Honey Amber accents and Soft Alabaster background. Conveys nature, nurturing growth, safety, and Ofsted-grade compliance.

#1E4B43	#EAA838	#F48B68	#F9FAF9	#172321
Primary Teal/F	Honey Amber	Nurture Peach	Soft Alabaster	Slate Ink

Option 2: Warm Nordic Childhood & Care

Soft Terracotta with Warm Sage and Oatmeal background. Highly approachable, modern, Scandinavian-inspired, calming for shift workers.

#C85A3D	#5A8B76	#FBF8F4	#344B3F	#1F2421
Warm Terracott	Soft Sage	Warm Oat	Muted Olive	Charcoal

Option 3: High-Trust Healthcare & Institutional Trust

Deep Oxford Navy with Warm Marigold and Pearl Grey. Professional, highly structured, emphasizes payroll transparency and DBS vetting rigor.

#1B2A4A	#F2A900	#10B981	#F8FAFC	#0F172A
Oxford Navy	Marigold Accen	Mint Success	Pearl Canvas	Deep Slate

2. Mobile Application Screen Catalog & AI Design Prompts

Below is the exhaustive catalog of every screen, sub-screen, and bottom sheet across the KFlex Flutter mobile app. Each card provides the exact route, user intent, layout hierarchy, and an optimized, copy-pasteable prompt for AI visual generation tools (Midjourney v6, v0.dev, Galileo AI, Figma AI).

#01 Splash & App Entry Screen

Route: /splash

- **Primary Persona:** Both Practitioners and Nursery Managers
- **User Goal (Job to be Done):** Authenticate user session, verify minimum app version, check feature flags, and seamlessly route to Home or Onboarding.
- **Key UI Elements & Layout:** Brand mark animation, welcoming tagline ('Flexible Early Years Staffing in the UK'), discreet background warmth, subtle loading indicator.
- **Dynamic & Edge States:** Network retry button, forced update dialog banner ('Update Available to Version 1.6.0').

PROMPT FOR AI DESIGN GENERATION:
Modern clean mobile splash screen for UK early years nursery staffing app 'KFlex'. Centered elegant minimalist logo featuring interlocking leaf and bridge symbol. Forest teal (#1E4B43) and honey gold (#EAA838) accents on a soft alabaster warm white background (#F9FAF9). Subtle typography reading 'KFlex: Early Years Staffing, Simplified'. Smooth micro-shimmer loading bar at bottom. iOS and Android UI kit, 8k resolution, minimalist, warm and trustworthy.

#02 Role Selection Screen

Route: /role-select

- **Primary Persona:** New Unregistered Users
- **User Goal (Job to be Done):** Allow the user to choose their operational persona ('I am an Early Years Practitioner' vs 'I represent a Nursery or Nursery Group').
- **Key UI Elements & Layout:** Two large interactive cards with friendly vector illustrations: Card 1 (Practitioner with play materials, 'Find Flexible Shifts & Earn Holiday Pay'), Card 2 (Nursery building with friendly staff, 'Post Shifts & Book Qualified Staff in Seconds'). Bottom sign-in link.
- **Dynamic & Edge States:** Selected active border highlight (2px honey teal), haptic feedback, disable continue button until card selected.

PROMPT FOR AI DESIGN GENERATION:
Dual-role selection screen for UK childcare mobile app. Two large rounded touch cards on soft oat background. Top card shows 'Childcare Practitioner' with badge 'Level 2, 3 & Qualified Nursery Nurses' and pay indicator 'Earn up to £18.50/hr'. Bottom card shows 'Nursery / Early Years Setting' with badge 'Emergency cover & long-term staff'. Selected card has elegant warm emerald border (#1E4B43) with soft shadow. Clean typography, Plus Jakarta Sans, Figma UI design, award-winning healthcare mobile design.

#03 Authentication: Sign In Screen

Route: /sign-in

- **Primary Persona:** Returning Users (Practitioners & Nurseries)
- **User Goal (Job to be Done):** Securely log into existing accounts using email/password or biometric Google/Apple auth.
- **Key UI Elements & Layout:** Clean header with logo, email field, password field with visibility toggle, 'Forgot Password?' link, primary CTA button ('Sign In'), divider 'or continue with', Apple and Google sign-in buttons, footer link to Sign Up.
- **Dynamic & Edge States:** Validation errors (invalid email format, incorrect password), rate-limit countdown banner (after 5 failed attempts), biometric prompt trigger.

PROMPT FOR AI DESIGN GENERATION:
Crisp, welcoming login screen for UK nursery staffing app. Forest teal primary button (#1E4B43) with rounded pill radius. Email input with email icon, password input with eye icon and forgot link. 'Sign In' button with soft drop shadow. Social login pills for Apple and Google. Soft warm cream background, subtle child-friendly geometric shapes in header illustration. Clean mobile interface, modern Material 3, accessible contrast ratios.

#04 Authentication: Sign Up Screen

Route: /sign-up

- **Primary Persona:** New Users creating an account
- **User Goal (Job to be Done):** Capture full name, email, strong password, phone number, and accept Terms of Service & Privacy Policy.
- **Key UI Elements & Layout:** Progressive input fields with real-time password strength meter (min 8 chars, numbers, symbols), phone number field with UK +44 prefix, interactive checkbox for Terms of Service, 'Create Account' primary button.
- **Dynamic & Edge States:** Inline validation error pills, loading spinner inside button, email verification sent notification modal.

PROMPT FOR AI DESIGN GENERATION:
Modern registration screen for UK education app. Step indicator showing step 1 of 3. Full name, UK phone number with +44 flag picker, email, password strength indicator with 4 progressive color bars (weak red to strong forest green). Interactive checkbox with blue-underlined UK terms link. Warm cream surface, high-contrast dark slate text, pill-shaped primary action button.

#05 Password Recovery Screens

Route: /forgot-password & /change-password

- **Primary Persona:** Users needing credential reset
- **User Goal (Job to be Done):** Request Firebase password reset link via email or enter new password while authenticated.
- **Key UI Elements & Layout:** Compassionate instructional header ('Trouble logging in?'), email field, 'Send Recovery Link' button, confirmation state showing inbox animation, return to login button.
- **Dynamic & Edge States:** Email not found error, success confirmation card with 60-second cooldown timer before resend.

PROMPT FOR AI DESIGN GENERATION:
Minimalist password reset screen for mobile app. Friendly illustration of an envelope with a security shield. Input field for registered email with mail icon. Primary button 'Send Instructions'. Success card state showing green tick badge, instructions to check spam folder, and countdown resend timer. Soft alabaster background, warm emerald accents, clean typography.

#06 Practitioner Onboarding Wizard

Route: /onboarding/staff

- **Primary Persona:** Newly Registered Practitioners
- **User Goal (Job to be Done):** Collect EYFS qualification level (Unqualified, Level 2, Level 3, Level 4/Degree), years of experience, UK home postcode, and emergency contact.
- **Key UI Elements & Layout:** Wizard layout with 3 segmented progress bars. Step 1: Qualification chips (Level 2, Level 3, QTS, EYTS, None). Step 2: UK Postcode with radius slider (1 to 25 miles). Step 3: Emergency contact & phone. Sticky bottom CTA ('Save & Continue').
- **Dynamic & Edge States:** Postcode format validation (UK Royal Mail regex), required field highlights, auto-save draft locally.

PROMPT FOR AI DESIGN GENERATION:
Step-by-step onboarding wizard for UK nursery nurses. Top has 3 pill progress dots. Clean chip selector grid for UK Childcare Qualifications: Level 2 Diploma, Level 3 Early Years Educator, Level 4/Degree, Unqualified Assistant. Postcode entry field with interactive travel radius slider (5 miles, 10 miles, 15 miles) with live map preview circle. Modern Flutter UI design, soft warm palette, accessible typography.

#07 Nursery Group Onboarding Wizard

Route: /onboarding/nursery

- **Primary Persona:** Newly Registered Nursery Managers / Owners
- **User Goal (Job to be Done):** Collect company registration number, billing address, billing contact person, staffing preferences, and initial branch details.
- **Key UI Elements & Layout:** Step 1: Companies House number with auto-lookup, trading name. Step 2: Billing contact, accounts email, phone, VAT registration toggle. Step 3: Branch 1 address, Ofsted URN, open/close hours. Primary action: 'Submit for KFlex Approval'.
- **Dynamic & Edge States:** Companies House lookup loader, VAT registration conditional fields, pending approval review confirmation dialog.

PROMPT FOR AI DESIGN GENERATION:
Executive 3-step nursery registration screen for UK nursery directors. Card-based form with company registration number input, company name, Ofsted URN field with informational tooltip, billing email and invoice address. Bottom summary shows '14-Day Free Trial will activate upon approval'. Forest green and warm gold accents, professional B2B mobile UX, clean card elevation.

#08 Versioned Terms Acceptance Sheet

Route: /terms-acceptance (Modal)

- **Primary Persona:** All Users on policy updates
- **User Goal (Job to be Done):** Present latest versioned Terms of Service, Privacy Policy, and Staff Handbook with explicit acceptance audit trail.
- **Key UI Elements & Layout:** Modal bottom sheet with drag handle, dynamic policy title ('Terms of Service v2.1 — October 2026'), scrollable markdown content box with key changes callout, acceptance checkbox, primary button ('I Accept & Agree').
- **Dynamic & Edge States:** Terms must be scrolled to bottom before checkbox enables, placeholder validation failure alert.

PROMPT FOR AI DESIGN GENERATION:
Modern bottom sheet modal for legal policy acceptance. Draggable top notch. Clean card with scrollable legal text container. Prominent alert box highlighting 'What Changed in Version 2.1 (October 2026): Clearer timesheet dispute windows and statutory rolled-up holiday pay breakdown'. Checkbox 'I have read and agree to the KFlex Terms'. Primary emerald button. Material 3 bottom sheet design.

#09 Browse Shifts: Map & List View

Route: /shifts

- **Primary Persona:** Practitioners looking for work
- **User Goal (Job to be Done):** Explore open shifts nearby, filter by qualification, hourly rate, date, and travel distance, and switch between List and Map views.
- **Key UI Elements & Layout:** Top search bar with date picker and distance filter chips. Toggle button for List vs Interactive Map. Shift cards displaying: Nursery Name, Branch location (e.g. 'St Albans - 2.4 miles'), Shift date and hours ('08:00 - 17:00, 8.5 hrs net'), Room ('Toddler Room 2-3 yrs'), Total pay badge ('£153.00 • £18.00/hr incl. £1.94 holiday pay'), 'Apply Now' CTA.
- **Dynamic & Edge States:** Shimmer skeleton loader cards, empty state ('No shifts matching your filters — try expanding your distance to 10 miles'), pull-to-refresh.

PROMPT FOR AI DESIGN GENERATION:
Top-tier job discovery feed for UK nursery nurses. Top sticky header with horizontal scrolling filter chips: 'Tomorrow', 'This Weekend', 'Level 3 Only', '< 5 Miles'. Shift feed showing elevated cards with rounded corners. Each card features: nursery thumbnail, branch name, distance pill badge '1.8 mi', room type tag 'Baby Room 0-2 yrs', shift duration '8:00 AM - 5:00 PM (1h unpaid break)', bold highlighted pay badge '£18.00/hr (£16.06 + £1.94 Holiday Pay)'. Floating bottom navigation bar. Vibrant, warm, ultra-clean mobile UI.

#10 Shift Detail & Application Screen

Route: /shifts/:id

- **Primary Persona:** Practitioners evaluating a specific shift
- **User Goal (Job to be Done):** Deep dive into shift requirements, nursery directions, room duties, break deductions, statutory holiday pay breakdown, and one-tap application.
- **Key UI Elements & Layout:** Hero nursery photo with Ofsted rating badge ('Good' or 'Outstanding'), map snippet with 'Open in Google/Apple Maps' button, detailed timetable table, statutory pay breakdown callout (Decision 12 formula), dress code ('Smart casual / navy polo, comfortable flat shoes'), key duties, 'Apply for Shift' floating action bar.
- **Dynamic & Edge States:** Shift already booked state, verification required warning banner ('DBS check pending approval before booking'), overlap conflict warning dialog.

PROMPT FOR AI DESIGN GENERATION:
Detailed shift overview screen in mobile app. Top header image of a bright, modern UK nursery classroom with 'Ofsted Outstanding' pill badge. Information cards: 'Location & Parking', 'Hours: 08:30 - 17:30 (30 min unpaid break = 8.5 payable hours)', 'Pay Breakdown: Basic Rate £15.17/hr + 12.07% Rolled-up Holiday Pay £1.83/hr = Total £17.00/hr'. Requirements checklist with green ticks. Sticky bottom bar with 'Apply for Shift' button. Forest green and honey accents, ultra-legible.

#11 My Shifts: Booked & History Tabs

Route: /my-shifts

- **Primary Persona:** Practitioners and Nursery Managers
- **User Goal (Job to be Done):** Track all upcoming confirmed shifts, active shift clock-in status, pending timesheets, and historical completed bookings.
- **Key UI Elements & Layout:** Segmented tab bar: 'Upcoming', 'In Progress', 'Pending Timesheet', 'Completed'. Shift status cards with color-coded status pills: 'Confirmed' (Green), 'Completed' (Teal), 'Pending Approval' (Amber), 'Disputed' (Rose). Direct button to 'Submit Timesheet' or 'Message Nursery'.
- **Dynamic & Edge States:** Empty state per tab with engaging illustration and CTA ('Browse available shifts'), cancellation policy reminder banner.

PROMPT FOR AI DESIGN GENERATION:
Schedule and shift tracking screen for childcare workers. Segmented top control: 'Upcoming (3)', 'Completed (12)'. Upcoming card has a large countdown timer 'Starts in 2 hours 15 mins', address with navigation icon, manager contact button, and 'Check In / Timesheet' button. Clean card layout with drop shadows, warm cream background, subtle micro-badges.

#12 Submit Timesheet Modal / Sheet

Route: /shifts/:id/timesheet

- **Primary Persona:** Practitioners after completing shift
- **User Goal (Job to be Done):** Log actual start time, actual end time, statutory unpaid break minutes, calculate net payable hours, and submit for nursery sign-off.
- **Key UI Elements & Layout:** Bottom sheet with draggable top bar. Shift date and nursery summary. Time pickers for 'Actual Start' and 'Actual Finish'. Segmented break picker (0m, 15m, 30m, 45m, 60m). Live net hours calculator box ('8.0 net hours = £136.00 total gross earnings'). Practitioner notes textarea. 'Submit for Approval' primary button.
- **Dynamic & Edge States:** Overtime warning indicator, 48-hour auto-approval notification banner ('Nursery has 48 hours to approve or dispute before automatic payout').

PROMPT FOR AI DESIGN GENERATION:
Interactive timesheet entry bottom sheet in mobile app. Start time wheel picker (08:00) and finish time picker (16:30). Horizontal break deduction selector pills: 'None', '30 mins (Standard)', '60 mins'. Dynamic calculation box displaying: Total Hours: 8.5h | Unpaid Break: 0.5h | Net Payable: 8.0h | Estimated Gross: £136.00. Input box for practitioner notes ('Covered late pickup until 16:30'). Submit button with forest teal background.

#13 Practitioner Earnings & Payroll Screen

Route: /payroll/earnings

- **Primary Persona:** Practitioners monitoring income
- **User Goal (Job to be Done):** View weekly earnings, track statutory rolled-up holiday pay accumulator (12.07%), view gross pay history, and download official HMRC PAYE payslips.
- **Key UI Elements & Layout:** Hero Earnings Card with total earned this month, Basic Pay subtotal, and separate Holiday Pay subtotal ('Decision 12 Compliant'). Weekly pay period cards showing hours worked, gross pay, deductions, and 'Download Payslip (PDF)' button. Bank details preview with masked account number ('•••• 4921').
- **Dynamic & Edge States:** Empty state for new workers, pending payroll cycle badge, encrypted bank detail update button.

PROMPT FOR AI DESIGN GENERATION:
Financial earnings and payslip dashboard for UK healthcare/childcare workers. Hero card with dark teal gradient: 'October 2026 Earnings: £1,842.50'. Two sub-metrics cards: 'Basic Wages: £1,644.06' and 'Accrued Holiday Pay (12.07%): £198.44'. List of weekly payslips with download icon, pay date, gross amount, and HMRC PAYE badge. Clean, high-trust fintech aesthetic, warm gold accents.

#14 Post Shift Wizard (Nursery Manager)

Route: /shifts/post

- **Primary Persona:** Nursery Managers needing emergency or planned cover
- **User Goal (Job to be Done):** Post an open shift in under 60 seconds with branch location, room, qualification requirement, break duration, and instant rate card cost preview.
- **Key UI Elements & Layout:** Branch selection dropdown (for multi-branch nursery groups), Date picker & Shift time spinners (Start, End), Room/Age group selector ('Babies 0-1', 'Toddlers 1-2', 'Pre-school 3-5'), Qualification requirement radio pills (Level 2, Level 3, Level 4+), Unpaid break duration selector (30m, 60m). Instant cost breakdown box: Hourly charge, total staffing fee, VAT indicator, 'Publish Shift' button.
- **Dynamic & Edge States:** Blocked state if nursery is unapproved or subscription trial expired, validation of shift overlapping existing bookings.

PROMPT FOR AI DESIGN GENERATION:
Fast-action shift posting screen for nursery directors. Clean step form on warm alabaster background. Branch selector card with pin icon. Time picker with start/end visual timeline. Qualification requirement selector pills with distinct color tags: 'Level 2 Qualified', 'Level 3 Qualified (Required)', 'Level 4 / Room Leader'. Cost preview container: '8 hours @ £22.00/hr = £176.00 + VAT'. Big primary CTA 'Broadcast to Qualified Staff'.

#15 Nursery Invoices & Plan Status Screen

Route: /billing/invoices

- **Primary Persona:** Nursery Owners & Finance Managers
- **User Goal (Job to be Done):** Track 14-day free trial countdown, view active membership plan (Standard £199, Premium £299, PAYG £9.99), view weekly invoices (`INV-YYYY-XXXX`), and access bank transfer details.
- **Key UI Elements & Layout:** Trial Countdown banner ('8 Days Left in Free Trial — Full Shift Posting Active'). Plan tier cards with features list. Invoice history table showing Invoice ID, billing week, net amount, VAT, status pill ('Paid' green, 'Awaiting Payment' amber), and 'View Invoice & Bank Details' button.
- **Dynamic & Edge States:** Past due warning banner, bank transfer modal popup showing Sort Code, Account Number, and Invoice Reference.

PROMPT FOR AI DESIGN GENERATION:
B2B billing and invoice management screen for nursery groups. Top card shows '14-Day Free Trial: 8 days remaining' with progress countdown ring. Subscription tier card displaying 'Standard Plan — £199/month ex-VAT'. Weekly invoice table with invoice numbers (INV-2026-0042), dates, amounts (£412.50), and payment status badges. Button 'Pay via Bacs / Bank Transfer' displaying pop-up modal with bank account details.

#16 Compliance: DBS & Document Upload

Route: /documents/dbs

- **Primary Persona:** Practitioners submitting compliance files
- **User Goal (Job to be Done):** Upload Enhanced DBS certificate, passport/photo ID, enter DBS certificate number, and grant DBS Update Service consent.
- **Key UI Elements & Layout:** Document status card ('Verification Status: Pending Review' amber badge). Photo capture / file picker box with guidelines ('Ensure all 4 corners of certificate are visible and clear'). Input for 12-digit DBS certificate number. Checkbox toggle 'I consent to KFlex verifying this certificate on the DBS Update Service'. Primary button 'Submit for Compliance Verification'.
- **Dynamic & Edge States:** Encryption badge ('Encrypted via AES-256-GCM envelope encryption'), rejected document state with reason callout and re-upload button.

PROMPT FOR AI DESIGN GENERATION:
Mobile document scanner and verification screen. Camera viewfinder container with dashed rounded border, document icon, and 'Take Photo or Choose PDF' button. Certificate guidelines box: 'Must be Enhanced Child Workforce DBS issued within 3 years or registered on the Update Service'. Input field for 12-digit certificate number. Trust badge: 'End-to-End Encrypted & GDPR Compliant'. Submit button in dark teal.

#17 Training & EYFS CPD Hub

Route: /training

- **Primary Persona:** Practitioners advancing qualifications
- **User Goal (Job to be Done):** Access mandatory UK childcare training modules (Safeguarding Children Level 2, Pediatric First Aid, EYFS Statutory Framework, Food Hygiene), watch videos, and take certification quizzes.
- **Key UI Elements & Layout:** Module progress cards with thumbnail, duration badge ('25 mins'), completion percentage bar, and quiz status badge ('Passed • 100%'). Module detail screen with embedded video player, lesson notes, and 'Take 5-Question Quiz' button.
- **Dynamic & Edge States:** Locked module states (prerequisite required), certificate download button upon quiz passing.

PROMPT FOR AI DESIGN GENERATION:
E-learning training module list for nursery workers. Header 'EYFS Continuing Professional Development'. Cards for training courses: 'Safeguarding Children in Early Years (2026 Refresher)' with 85% progress bar, 'Pediatric First Aid Basics' with green tick 'Certified'. Clean card UI with play icon, video duration badge, and 'Start Quiz' button. Clean educational styling, inspiring and warm.

#18 In-App Messaging: Chat & Conversations

Route: /chat & /chat/:id

- **Primary Persona:** Practitioners and Nursery Managers with confirmed shifts
- **User Goal (Job to be Done):** Direct real-time communication between manager and booked staff regarding shift arrival, room assignment, or emergency delays.
- **Key UI Elements & Layout:** Chat list view with avatars, unread message badges, last message snippet, timestamp. Chat conversation screen with nursery title, shift badge, bubble message stream (practitioner messages on right in teal, nursery messages on left in light grey), photo attachment button, send button.
- **Dynamic & Edge States:** Empty chat state, shift ended read-only indicator, offline message queued indicator.

PROMPT FOR AI DESIGN GENERATION:
Clean, professional messaging screen between nursery manager and temporary staff. Top bar displays nursery name 'Little Acorns Nursery' and confirmed shift pill 'Tomorrow 08:00 - 16:30'. Chat bubbles with soft rounded corners, timestamps, and delivered double-check marks. Input bar with photo attachment icon and send button. Safe, polite, distraction-free interface.

#19 Profile, Reviews & Nursery Branches

Route: /profile & /profile/branches

- **Primary Persona:** Both Personas
- **User Goal (Job to be Done):** Manage contact details, emergency contacts, profile photo, view star ratings and written reviews from nurseries, and manage multi-branch locations.
- **Key UI Elements & Layout:** Profile hero with circular avatar, verified qualification badge, overall star rating (e.g. '4.9 □ (34 reviews)'). Sections: Personal Information, Qualifications, Document Vetting Status, Nursery Branches list (for nurseries) with 'Add Branch' button.
- **Dynamic & Edge States:** Edit mode toggle, branch edit modal with postcode and Ofsted URN.

PROMPT FOR AI DESIGN GENERATION:
User profile screen in mobile app. Circular profile avatar with green 'DBS Verified' badge. Star rating card: '4.9 out of 5 stars based on 28 completed shifts'. Written feedback carousel from nursery managers. Settings and documents summary below. Clean, warm, high-credibility profile layout.

#20 Settings & GDPR Account Deletion

Route: /settings & /settings/delete-account

- **Primary Persona:** Both Personas
- **User Goal (Job to be Done):** Configure notification preferences, toggle Dark Mode, review legal terms, contact support, or execute irreversible GDPR account deletion.
- **Key UI Elements & Layout:** Settings list tiles: Push Notifications, Email Summaries, Dark Mode toggle, Terms of Service, Privacy Policy, Help & Support. Bottom red tile 'Delete Account'. Delete account sub-flow with warning bullets, required password verification, and confirmation prompt.
- **Dynamic & Edge States:** Deletion in progress overlay, App Store compliance account deletion confirmation.

PROMPT FOR AI DESIGN GENERATION:
App settings screen with clean grouped list items on warm background. Toggle switches for notifications and theme. Bottom section with red outline card for 'Delete Account & Personal Data'. Account deletion confirmation screen showing warning checklist regarding tax and payroll data retention under UK HMRC law. High accessibility, clean Material 3 design.

3. Desktop Web Admin Portal Transition Specification

Per architectural decision, all heavy administrative, compliance, financial, and regulatory workflows are transitioned from the mobile app to the secure **Desktop Web Admin Portal** hosted at `backend/public/admin/` (Firebase Hosting). This gives administrators full desktop screen real estate for wide data tables, document comparison, and one-click HMRC CSV exports.

> **Web Admin Security & Architecture**
> The Web Admin Portal is completely isolated from mobile builds. It authenticates administrative users with Firebase Auth custom claims ('AdminRole: PlatformSuperAdmin, OpsCompliance, FinancePayroll'). All API operations pass through App Check and audit logging (`shared/audit`), ensuring tamper-evident tracking of every compliance approval, payroll generation, and invoice payment.

A1. Admin Authentication & Role Gate — Desktop Web Login (`/admin/login`)

- **Core Purpose:** Secure administrative sign-in requiring MFA/2FA verification and checking `AdminRole` claims before granting access to dashboard routes.
- **Layout & Visual Elements:** Split screen layout: Left side showcases KFlex brand photography and compliance credentials; Right side provides email/password inputs, 2FA authenticator code box, and session timeout policy notice.

PROMPT FOR AI DESIGN GENERATION:
Figma prompt: 'Desktop web login screen for UK childcare staffing admin platform. Split layout with deep forest teal left panel (#1E4B43) and clean white login card on right. 2FA verification code input, secure badge, session timer, enterprise SaaS aesthetic.'

A2. Executive Operations Dashboard — Overview Console (`/admin/dashboard`)

- **Core Purpose:** High-level operational health snapshot: Total Nurseries, Total Staff, Open Shifts, Booked Shifts, Pending Documents, Unsettled Invoices, and Suspended Accounts.
- **Layout & Visual Elements:** Top metrics KPI cards grid with trend indicators (+12% this week), live urgent action banner ('4 Vetting Applications Pending Review • 2 Invoices Overdue'), quick-action buttons.

PROMPT FOR AI DESIGN GENERATION:
Figma prompt: 'Executive desktop admin dashboard for early years platform. Top row of 6 clean KPI metric cards with subtle icons and colored badges. Middle section showing live urgent approval queue table. Forest teal and soft slate theme, modern SaaS UI.'

A3. Practitioner Compliance & Vetting Hub — Document Verification Queue (`/admin/vetting`)

- **Core Purpose:** Review applicant documents (Enhanced DBS, Passport/ID, Qualifications, Right to Work) with split-screen document viewer, DBS Update Service verification toggle, and one-click Approve / Request Docs / Reject actions.
- **Layout & Visual Elements:** Table of pending applicants with filters. Clicking an applicant opens side-by-side view: Left pane shows applicant info and DBS number; Right pane displays high-res encrypted document viewer with zoom/pan and checklist.

PROMPT FOR AI DESIGN GENERATION:
Figma prompt: 'Desktop compliance review console with split screen. Left side: practitioner profile and DBS verification form. Right side: high-resolution document viewer showing DBS certificate with zoom controls and approval/rejection action bar.'

A4. Nursery Group & Branch Approval Console — Nursery Approvals (`/admin/nurseries`)

- **Core Purpose:** Verify new nursery company numbers with Companies House, inspect billing contacts, review branches, and grant official KFlex operating approval (which automatically starts their 14-day free trial).
- **Layout & Visual Elements:** Sortable data table of nurseries with status filters ('Pending Approval', 'Active Trial', 'Active Paid', 'Suspended'). Action modal displaying branch list, Ofsted URN, and 'Approve & Activate 14-Day Trial' button.

PROMPT FOR AI DESIGN GENERATION:
Figma prompt: 'B2B nursery management desktop admin interface. Data table with columns for Nursery Name, Company Number, Branches, Signup Date, Status Pill, and Actions. Clean modal for approving nursery registration and triggering free trial.'

A5. Timesheet Oversight & Escalation Hub — Timesheet Console (`/admin/timesheets`)

- **Core Purpose:** Monitor all shift timesheets across the UK, view auto-escalated timesheets (past 48 hours without nursery action), resolve disputed hours, and execute administrative approvals.
- **Layout & Visual Elements:** Table showing Shift ID, Nursery, Practitioner, Scheduled Hours, Actual Hours, Break Deductions, Status ('Pending Nursery', 'Auto-Escalated', 'Disputed'). One-click 'Admin Approve' button with audit note input.

PROMPT FOR AI DESIGN GENERATION:
Figma prompt: 'Desktop administrative timesheet dispute and approval table. Amber warning pills for auto-escalated shifts (>48h). Side drawer showing clock-in timestamps, break deductions, and practitioner notes with manual override approval button.'

A6. HMRC Basic PAYE Payroll & CSV Export Hub — Payroll Hub (`/admin/payroll`)

- **Core Purpose:** Execute statutory payroll runs for practitioners, inspect gross vs basic vs 12.07% rolled-up holiday pay breakdowns, and download official HMRC Basic PAYE Tools CSV directly to disk.
- **Layout & Visual Elements:** Payroll period selector dropdown, summary cards (Total Payroll Gross, Total Basic Wages, Total Holiday Pay Accrued), line-by-line practitioner table, and prominent green 'Download HMRC PAYE CSV Export' CTA button.

PROMPT FOR AI DESIGN GENERATION:
Figma prompt: 'Payroll management desktop dashboard for UK employer. Period selector 'Week 42 - Oct 2026'. Summary boxes displaying Gross Pay £14,250, Basic Pay £12,715.27, Rolled-up Holiday Pay (12.07%) £1,534.73. Large primary button 'Export HMRC Basic PAYE Tools CSV' with file download icon. High-trust fintech data table.'

A7. Weekly Billing & Bank Settlement Hub — Invoicing & Reconciliation (`/admin/invoices`)

- **Core Purpose:** Track all weekly nursery invoices (`INV-YYYY-XXXX`), verify Bacs bank transfers received in KFlex's bank account, click 'Mark Paid (Bank Transfer)' to reconcile ledger, and issue credit adjustments.
- **Layout & Visual Elements:** Invoices table with sequential IDs, nursery names, staffing subtotal, membership fee subtotal, VAT subtotal, total amount, payment method ('Bank Transfer' vs 'Stripe'), and 'Mark as Paid' action button.

PROMPT FOR AI DESIGN GENERATION:
Figma prompt: 'Desktop invoice reconciliation and bank transfer matching table for B2B platform. Sequential invoice numbers INV-2026-0042, nursery names, amount in GBP (£), payment status badges. Action button 'Mark Paid via Bank Transfer' with modal for entering bank transaction reference.'

A8. Immutable Audit Trail Console — Security & Compliance Log (`/admin/audit`)

- **Core Purpose:** Search and review tamper-evident, append-only logs of every administrative mutation (vetting approvals, payroll calculations, invoice settlements, rate card changes).
- **Layout & Visual Elements:** Filterable log table with Timestamp (UTC), Actor UID, Action Name, Target Collection, and expandable JSON details drawer showing before/after state diffs.

PROMPT FOR AI DESIGN GENERATION:
Figma prompt: 'Security audit log desktop screen for regulated platform. Monospace timestamps, actor badges, action tags (VETTING_APPROVED, PAYROLL_GENERATED), expandable JSON diff viewer showing before and after states. Dark slate and teal accents.'

4. Design System Tokens & AI Generation Checklist

When feeding these prompts to an AI image generator or design agent (Midjourney, v0, Galileo, Cursor, Figma AI), ensure the following design tokens and system parameters are strictly adhered to:

- **Typography System:** Primary font family: Plus Jakarta Sans (or Inter). Display Headings: 24-28pt Bold. Section Headers: 16-18pt SemiBold. Body Text: 14pt Regular (1.5 line height). Micro-labels & badges: 11-12pt Medium. High legibility on mobile screens under direct sunlight.
- **Border Radii & Shape:** Cards: 16px (smooth squircle). Buttons: 999px (full pill radius) for primary CTAs; 12px for secondary outlined buttons. Input fields: 12px with 1.5px border. Bottom sheet modal top corners: 24px.
- **Shadows & Elevation:** Elevation Level 0: Border only (#E5E7EB, 1px). Elevation Level 1 (Cards): 0 2px 4px rgba(18, 28, 24, 0.04), 0 8px 16px rgba(18, 28, 24, 0.06). Elevation Level 2 (Floating Nav & Modals): 0 12px 32px rgba(18, 28, 24, 0.12). Never use harsh black drop shadows.
- **Iconography & Assets:** Lucide Icons or Phosphor Icons (Rounded style, 20-24px stroke width 1.75). Photography should depict authentic, warm British early years settings: bright natural timber furniture, child-friendly reading corners, diverse qualified practitioners wearing smart branded polo shirts.
- **Accessibility (WCAG AAA):** All text must exceed 4.5:1 contrast on regular text and 7:1 on large text. Color is never the sole indicator of status (always pair status badges with text labels and distinct icons: checkmark for approved, clock for pending, alert triangle for disputed).
- **Micro-Interactions:** Shimmer skeleton loading on all network cards. Smooth 250ms fade-through screen transitions. Haptic feedback on button taps and timesheet clock adjustments. Pull-to-refresh on shift feeds.

How to Use this Document with AI Designers

1. Copy the specific 'PROMPT FOR AI DESIGN GENERATION' from any screen in Section 2 or Section 3. 2. If using Midjourney: Paste the prompt with parameters '--ar 9:16 --v 6.0 --style raw' for mobile screens or '--ar 16:9' for web admin views. 3. If using v0.dev or Galileo AI: Paste the prompt directly to generate production-ready React / Flutter code with Tailwind or Material 3 styling. 4. If briefing human UI/UX designers: Hand them this PDF as the complete functional specification of all 26 mobile screens and 8 desktop admin consoles.
